User Guide for Wallbox Charging Stations
How to charge with an RFID tag?

Start charging:

1. Connect the charging cable to your vehicle.
2. Connect the charging cable to the charging station.
3. Show the RFID tag to the RFID reader. (Not necessary if charging is free.)
4. The LED indicator light flashes green and verifies that you are allowed to charge.
5. The LED indicator light turns blue, charging is ongoing.

Stop charging:

6. Show the RFID tag to the RFID reader. (Not necessary if charging is free.)
7. The LED indicator light turns green.
8. Disconnect the charging cable from the charging station.
9. Disconnect the charging cable from your vehicle.
